

SkinPro Service & Pricing

Laser Hair Removal

SkinPro Lumenis laser technology to safely provide permanent laser hair reduction for all hair/skin types. Effective laser hair removal is achieved when there is most contrast between the hair and skin. Laser Hair Removal is done by applying light energy to the skin in a directed manner to target pigment in the hair follicle. Light energy is converted to heat and effectively destroys the target leaving the surrounding tissue intact. A series of treatments with annual maintenance is expected for successful laser hair removal.

For full instructions, precautions, and your personal treatment plan please contact us to book your free consultation.

IPL Skin Rejuvenation

SkinPro uses Stellar M22 IPL technology to provide targeted, effective, skin rejuvenation. This treatment is ideal for treating pigmentation spots, vascularity, textural issues, skin laxity, complexion clarity, mild to moderate inflammatory acne, rosacea, fine lines, and more. IPL is commonly used to treat skin on the face, hands, and body. It is best to plan for this treatment at least 2 weeks prior to a special event.

ResurFX Non-Ablative Fractional Resurfacing

Looking to refresh your complexion? Look no further than ResurFX™ by Lumenis®, a state-of-the-art non-ablative, fractional laser resurfacing technology. ResurFX™ stimulates the production of collagen in the deep layers of the skin to address issues including fine lines and wrinkles, texture and tone, discoloration, scarring, and overall skin appearance. This unique technology enables SkinPro to offer Sherwood Park & Edmonton clients a safe and comfortable treatment to achieve healthier, more radiant skin with minimal downtime.

ResurFX™ works to stimulate the production of new collagen and remove sun damage, resulting in more even and youthful-looking skin. While some redness, swelling, and minor irritation (like the effects of a sunburn) may be experienced immediately following treatment, these effects typically subside within a few days, allowing for a short and comfortable recovery. Most patients can resume their daily activities the very same day.

For full instructions, precautions, and treatment plans please contact us to book your free consultation.

Area	Per Session

Q Switch Laser

Using Q Switch ND:Yag Laser energy to build a deep heat in the tissue we are able to stimulate the production of collagen, elastin, and target melanin pigment in the skin. This gives an overall improvement to skin tone and clarity with an improvement to the appearance of pigment, dark circles, and signs of aging. Tighten and revitalize your skin with this zero down-time treatment option. This is an ideal treatment for those diagnosed with melasma or other dyschromia.

Eye	\$99

Laser Vein Treatment

We provide safe, non-invasive treatments to help you resolve spider veins, leg veins, facial veins, broken capillaries, angiomas, and even manage vascular or papulo-pustular rosacea, SkinPro's Nd:YAG Vein Reduction treatment will be tailored to target specific concerns, ranging from thicker yarn like veins to fine thread-like capillaries and everything in between. You will see noticeable results with no downtime! 3-4 treatments are needed for optimal results. Results are seen as soon as 1 week after treatment. You will have longer-lasting results by using a physical block sunscreen, avoiding sun exposure, and committing to a treatment plan.

	Nose	\$99
	10 min	\$125
	25 min	\$225

Dark Tattoo Removal

Using a Q-Switch Nd:Yag Laser we can effectively lift dark tattoo inks with blue and black pigment. When you direct the 1064 wavelength of light to a tattoo, the light will penetrate the skin and is absorbed by the tattoo ink. The light waves convert to heat and break down the tattoo ink into particles, which are slowly eliminated via our body systems. It is a lengthy process, so you can not achieve the goal instantly. It requires several sessions, particularly when a tattoo is large. The color of the tattoo ink also affects the progress. We recommend a consultation, the usage of topical numbing (available in store or online), and regular sessions for best results. For full instructions, precautions, and treatment plans please contact us to book your free consultation.

Blush x SkinPro “Bride to Be”

Only the best, for the best.

These thoughtfully curated treatment plans were created with your special day in mind. Trust us as we prepare you for your most beautiful day ever!

Radiant. The pre-wedding facial of your dreams, best reserved the week prior to your special day.

Emerald. This is the photo ready facial package you need! Including a series of exfoliating peels, photo rejuvenation face and neck plus a pre-wedding Radiance Facial Treatment. Book this package about 3-4 months prior to your special day.

Princess. Be wedding gown ready with laser hair removal for underarms + extended bikini line, 3 exfoliating facial peels, and your choice of pre-wedding Microdermabrasion or Dermaplaning to ensure your skin is best prepped for your wedding glam. We suggest starting this series 4-6 months prior to your special day.

	Per Package
Radiant	\$197
Emerald	\$797
Princess	\$1147

Microneedling

Collagen revitalization therapy by SkinPro is done using the highest quality Health Canada approved microneedling device and products on the market. Microneedling is the ideal treatment for those looking to focus on skin tightening, pigmentation, texture, pore size, fine lines, scars, or stretchmarks, without the use of laser. Microneedling can be combined with Microdermabrasion, IPL Skin Rejuvenation, and Radio Frequency for increased results. Microneedling is not the best option for those with highly vascular skin or those with uncontrolled rosacea.

	Per Session
Full Face	\$399
Full Face + Neck	\$479
Full Face + Neck & Décolleté	\$599
Stretch Marks	\$399

Exfoliating Peels

We utilize superior cosmeceutical ingredients to provide safe and effective peels for all skin types and skin conditions. Peels are extremely effective in the treatment of melasma, oily, acneic, congested, dull, lackluster skin. We choose from AHA, BHA, Tri-phasic, and Tranexamic acid peels to ensure you get the highest quality results.

Enzyme peels are a safe choice of exfoliation for sensitive skin, expectant mothers, and are ideal for regular use.

We recommend a series of peels in the fall to rid the skin of sun damage, replenish hydration levels, and improve skin tone for an overall brighter complexion. Peels are a gold standard step in ultimate skin health and should be done for regular maintenance and best results.

	Per Session
Full Face	\$85 - 225
Chest	\$90+
Back	\$135+
Add On	\$60

Aqua Facial 2.0

With the Skin Balance Aqua Facial 2.0 from MONTEIL, skin problems like acne and acne scars, enlarged pores, impurities and age spots are a thing of the past. Combining hydra-abrasion, microdermabrasion, and infusion provides a gentle yet effective treatment. The production of new skin cells and collagen is promoted. After the first treatment your complexion will already appear more radiant!

	Per Session
Deluxe Aqua Facial	\$195
Ultimate Deluxe Aqua Facial	\$265

Microdermabrasion

SkinPro loves the exfoliating & refining results of a thorough microdermabrasion. Lymphatic drainage reduces puffiness, stimulates cellular detoxification, and improves the overall complexion. Microdermabrasion exfoliates the surface of the skin, minimizes fine lines, wrinkles, pores, and eliminates congestion. Microdermabrasion is safe on all skin types except active acne and highly vascular skin conditions such as rosacea. Ask us about our treatment plans for these skin challenges. Try a microdermabrasion prior to IPL skin rejuvenation for a deeper treatment.

	Per Session
Full Face	\$99
Face/Neck	\$139
Back	\$165
Add On	\$60

Dermaplaning

SkinPro recommends a Dermaplaning facial with a hydrojelly mask before your next special event, photoshoot, or vacation. Your skin will be revitalized, exfoliated, and free of vellus hair (peach fuzz) on the surface of the skin. Dermaplaning is not ideal for active acne, extremely sensitive, or broken skin.

	Per Session
Full Face	\$99
Add On	\$60

SkinPro Facial Treatments

SkinPro offers deluxe custom facials in a cozy spa atmosphere. What can we say, SkinPro Facials are simply the best! Book with us now, you will not be disappointed.

- Deep Cleanse ~ Combines active enzymes, extractions, & ultrasonic. Best for those with congestion or dullness or needing a deep clean.

Observe Digital Skin Analysis

This service is FREE with select packages & provides a \$50 credit towards your next treatment! SkinPro uses the Observe Skin Analysis to scan your skin and generate a series of images to examine what lies beneath. This allows us to better advise your custom treatment plan and measure results. This easy process scans the skin in just 3 quick photos and generates a custom report just for you. This allows you to get a head of what is to come to the surface of the skin over time.

Digital Skin Analysis	\$65 *treatment credit available
